ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Auction Sales Are Conducted in the Following

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

**YOU WILL WANT A PRICE LIST OF THIS SALE
TO KNOW WHAT COINS ARE BRINGING
PRICE LIST OF SALE \$1.00**

IS THIS YOUR FIRST AUCTION CATALOG?

Proof coins, branch mints 1892-1934 unc., currency and commemoratives seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** in the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even the auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING THESE
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION.**

BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then), we want to hear them. Having cataloged over one hundred ninety successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the **bid sheet**. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

Consignment A — Arkansas
HALF DIMES

Until recent years, probably the most neglected of all U. S. series. Now that there is a sharp increase in demand, collectors have discovered that there just isn't any supply around. This has resulted in the scarcer ones bringing several times catalog, and even the so-called "common ones" bringing substantial premiums over catalog. We look for a drastic revision upwards in the catalog valuations in the next year or two.

LIBERTY WALKING HALVES

The difference in value between ordinary "uncirculated" and gems (sharply struck) is rapidly widening as more and more collectors are beginning to realize the difficulty in obtaining gems versus ordinary "uncirculated." Remember, coins, other than proofs, are struck for circulation. Many become damaged in the process of manufacture and what do not become damaged in this process are usually damaged in the sacking, shipping, unsacking, counting and rolling. This is particularly true of the heavier coins such as half dollars and silver dollars. We note the catalog finally recognizes the premium of gems over ordinary "uncirculated." We do not believe that they can be lumped together as to premiums for gems as the relative rarity of gems versus ordinary "uncirculated" varies from coin to coin. Our values are based on careful records and are as accurate as we can compile. WE BELIEVE A GEM SET OF THIS SERIES IS AN OUTSTANDING RARITY AND WILL SHOW A SHARP RISE IN VALUE DURING THE NEAR FUTURE.

CURRENCY — LARGE SIZE LEGALS

This is being cataloged after our return from the conventions in Detroit and New York. If we were enthusiastic about the future of paper money before, we are super-enthusiastic now. The most popular branch of numismatics at both conventions was paper money with demand far exceeding the supply on the choice and scarce notes. Many brought 3 to 5 times catalog. Of course the value of the rarities could not be ascertained since they were not offered. We did note that the \$50 1891 coin note brought \$1600 at auction (which is still quite reasonable considering its rarity). We believe present day prices will appear as "bargains" a few months from now. AT THE PRESENT RATE OF RISE IN VALUES OF CURRENCY, THE BIGGEST BARGAIN IS THE OPPORTUNITY TO ACQUIRE THE ITEM. What value is a price if the item is not available? In an auction, the items are available to the highest bidder. Naturally, those with vision will bid high enough on scarce and rare items to obtain them while those who are "catalog con-

scious" will probably only obtain the more readily available items which will rise slowly. A few months hence when the new catalog is issued with the marked increase in valuations, most collectors will then be willing to pay what the items are selling for today—but it will be too late. By then the increasing demand will have sent the item higher. We are continually receiving letters from collectors telling us, "I wish I had paid the price for ----- when it appeared in your ----- sale, now it has gone up 300 per cent and I still do not have it." Of course our answer is, "Forget what you should have done—what will you say a year from now—"I'm glad I acquired -----" or will you repeat "I wish I had paid the price for ----- when it was available."

TREASURY OR COIN NOTES

A short and popular series representing some of the best examples of engraving of the Bureau of Printing and Engraving. These were payable "IN COIN" (gold or silver) and were issued in payment of gold or silver bullion deposited with the Treasury. The 1890 series have particularly intricate reverses which are indeed beautiful but are also harder to detect counterfeits. This resulted in the reverse designs being changed in 1891 to a more open style. BOTH THE 1890 AND 1891 SERIES ARE RISING RAPIDLY WITH NEW RECORDS BEING SET NEARLY EVERY TIME OFFERED.

1918 \$1 FEDERAL RESERVE BANK NOTES

One of the most popular of all series and collected two ways, one from each of the 12 banks or all of the listed signatures. One of the advantages of trying to complete all the signatures is that a number of "sleepers" exist and are gradually being discovered as the demand increases. Should prove to be an excellent investment at the present rate of rise in values.

1914 FEDERAL RESERVE NOTES

Undoubtedly a number are real "sleepers" as we do not know of a single complete collection. While there is only a slight difference in catalog value between signatures and banks, frequencies (or infrequencies) of appearance of certain notes inevitably leads us to the conclusion that the entire series is in need of revaluation—many sharply upwards. With present catalog valuations so close to face, we cannot help but feel that the series offers investment possibilities during the coming years.

\$3 GOLD

Literally rising from month to month in value. Easily understandable when the small numbers struck is considered. It is ridiculous having a 5000 or so issue bringing only \$1 or \$2 above a 138,000 or so issue. Now that a sharp demand has arisen, watch the scarce ones climb.

\$10 GOLD

With gold now being the "cheapest series to collect" in point of premium over the actual gold value, we have noted a number of new collectors trying to "fill out a set". Some collect by types, some by one of a year and some by

trying to build a complete collection of dates and mints. It would certainly appear that this would be an opportune time to start.
